4. Now you are registered! If you would like to use your smart phone as voting device in the lecture, go to step 2 to download the app. If you will use your laptop as voting device during the lecture, you can have a look at step 3 to learn more.

Step 2 – Installing the application on a smart phone

This step is only required if you want to use your smartphone as your voting device during the lecture. In that case you have to install the responseware app on your phone

Iphone:

1. Go to the App Store on your phone
2. Search for 'responseware'.
3. Download the app 'Responseware ®Turning Technologies, LLC Education'
4. Once the app is installed you can log in with your account details.
5. Go to step 3 to see how to use the application during the lecture

Android:

1. Go to the Play store on your phone
2. Search for 'Turningpoint'
3. Download the app 'Responseware ®Turning Technologies, LLC Education'
4. Once the app is installed you can log in with your account details.
5. Go to step 3 to see how to use the application during the lecture

Step 3 – Using Responseware during the lecture

If you work on a **laptop or computer** follow the next steps:

1. Go to the webpage www.rwpoll.com
2. Log on to your responseware account:

[Login](#)

Welcome to ResponseWare

Enter a session ID:
